

Getting Started in Mobile Banking

ADD A LITTLE CONVENIENCE TO YOUR DAY!

You can enroll in mobile web banking or our mobile banking app through your mobile device if you meet the following criteria:

- You have previously logged on to Online Banking
- You have an active Online Banking ID.
- You are not being prompted to re-agree to the Online Agreement.

Here's how:

1. Download the app by searching the App Store for Community Bank Parkersburg.
2. Log on to the mobile browser at www.airteller.com/communitybankwv or mobile app using your existing Online Banking credentials.
3. Select **I Agree** to the mobile terms and conditions, and then select **Continue**.
4. Complete the required mobile enrollment fields, and then select **Submit**.
5. Select **No** or **Yes** for the *Would you like to receive text confirmations?* screen.

You are then enrolled, and are now able to bank on your mobile device.

If your enrollment was successful, you are directed to the *Menu* or *Accounts* screen.

If your enrollment was unsuccessful, an error message appears detailing why you were unsuccessful.
